# Digital Signage, Delivered Smarter

## One bundle. Zero friction. Endless impact.

For2Fi has partnered with Mandoe to deliver a smarter, turnkey approach to digital signage—combining Mandoe’s intuitive content creation platform with For2Fi’s fast, reliable 5G wireless connectivity in one seamless bundle. Businesses can design, schedule, and update on-brand visuals in minutes, while our managed 5G solution keeps every screen running smoothly, securely, and without the need for complex wiring or IT support.

This partnership removes the complexity typically associated with digital signage deployments, giving customers a single, trusted provider for both content and connectivity. It’s a frictionless way to deploy digital signage at scale, powered by the speed, simplicity, and always-on performance modern businesses expect.

## No design skills are required - it’s that easy!

### Type Prompt

Simply enter a prompt like "Happy Hour, 50% off from 3-4PM," and the AI instantly generates professional designs for you.

### Pick Template

Get access to tons of templates for promotions and menu boards that perfectly match your brand.

### Free Images & Videos

Stop paying for stock photos. Mandoe includes millions of curated images and videos for you to use at no extra cost.
