For2Fi, the leader in business wireless networks, is proud to launch the industry's first Unlimited usage plan for business. For2Fi+ Business Unlimited is THE ANSWER for businesses looking for 30 to 50 Mb download speeds, up to 5 Mb upload speeds. With super-low latency and low packet loss, For2Fi+ delivers an enterprise-grade service over the nation's fastest 4G networks that can power business applications like video conferencing, file collaboration, teams, and unified communications as a service (UCaaS).
